

Energy Committee Minutes for July 9, 2009

Members present: Jean Butman, Whit Humphreys, Lois Trenn, Karen Barber

Our application for the Vermont Community Climate Change Grant was approved. Whit will answer the questions asked by Don Einhorn so that he can prepare the agreement; Lois will ask the Selectboard for a resolution authorizing the grant. Whit will check on Mike Sheldrick's availability.

Whit will try to get a quote to have the blueboard installed on the outside of the town office, so that we can pursue funding for that work.

Karen and Whit will write the Energy Tip for August, which will announce the grant approval.

Jean and Karen will work on something for Family Day.
